Re: Obscenity on TV

To whom it may concern.

It is beyond my comprehension why you would allow more filthy language, inappropriate behavior and nudity on television to be seen by our impressionable children? Are there not enough unwanted pregnancies and children going to prison to suit you people?

Are there not enough single parent homes and drug dealing in our children's faces 24-7?

Are you deliberately trying to destroy this country? I think the answer to the last question must be YES! I would hate to think because of my decision that I may have caused a child to go down the wrong path in life! May God help our nation!

Sincerely,

Pam Davis
