

Concerning the FCC idea of opening up TV for more profanity and nudity. Have you people lost your minds? Would you want your children and grandchildren to hear and see such as that. I surely hope not and neither do I. Where is your common horse sense? Are all of you Democrats??? Children grow up way too fast today. They will hear and see such as that soon enough in life. Let them be children for as long as the innocence can last. Please do not rob them of that because I assure you, Hollywood will do and say anything. They do not care. Do you?
