

Please don't allow nudity and profanity in radio or television broadcasting. I've worked with preschool children in a school district for over 25 years and have witnessed a severe increase in violence, sexual talk and disrespect coming out of the mouths of these babies. This does not come naturally. They have been exposed to this from the tv, radio and parents who don't care. Children are watching tv at all hours. Clean up your act or the population will grow up thinking this is acceptable.
