

Glenn knows he was being somewhat facetious in that last message. No it's not actually true, however it is true.

No the Swiss alps aren't calling the pro to call (IP protocol), yes, the phone rings again, it's the swiss alps calling your smart phone etc.

Yes, I was being facetious, and I supposed God knows more about Glenn without having to research on the computer or phone.

Yes Glenn is a hypocrite, however, he still must serve jesus christ, to be a clean garment guess at the marriage supper of the lamb.

I suppose blessed are they called to marriage supper of lamb, is reward enough, and the ticket for Glenn is to live his life clean, pure body and soul, and wash his garments.

Then after Christ marries his bride, Christ will give Glenn further instructions. Glenn may live his natural life to be 100 years old, or maybe Christ is coming next month or next year. Either way, it's a good harvest and good life.

The weather person on tv and radio and newspaper. Glenn is beginning to think we should the weather as it comes, and not listen to the forecasters.

One might suspect that in the future the weather forecaster might want some credit for your sucess in life.

As one should prepare in life, ready to meet God, Christ, and Heaven, we should do that without a forecaster.

Similar to the weather. What I am saying is this. If you depend on the weather forecaster on tv, raio, and newspaper, are you also depending on the weather forecaster on what is in store for heaven?

If it rains it rains. We should prepare for the spiritual storms in life, we should prepare for our preparation in life, without a weather forecaster.

Glenn is a hypocrite. And Lots wife did turn into a pillar of salt. To be continued....
