

Television today is so anti family, we do not need to relax any rules but simply follow the rules that exist and get back to a family friendly standard. Sex, nudity and profanity need not be shown on regular TV during any hour! We have had to avoid most TV programs as they are so unsettling and once a child or adult has seen something there is nothing to take it out of their mind. Since the FCC work for the people, then begin by being serious about protecting our freedom, and not allowing any further attack to force indecent and offensive programs that could be viewed by children and families shown during any time. Thank you for reading my concerns. Sincerely, Brenda C. Baird, West Chester, OHIO
