

station New Jersey 101.5 DJs who decided it would be appropriate to make fun of people who fight for animals

I find the conduct of your three dj's to be extremely offensive. To joke about a dog that was put in a plastic bag and have it taped shut is not a situation that should be joked about. The person that did this horrible thing will one go from animals to humans with their cruelty. For them to further make fun of the people that are fighting for the rights of animals and against animal cruelty I also find this very disturbing and disgusting. I'm sure your companies sponsors will enjoy a decrease in there products sales due to your support of the behavior of your employees. No cruelty against animals or humans is except able behavior it takes a seriously sick person to gain enjoyment from the suffering a defenseless animal or against a person. So I'm sure you an idea my thoughts and feeling on your employees. A public apology to the rescuers, vet, fosters of the dog Sammy should be forthcoming and to all those who bravely fight against animal cruelty is in order before you suffer a loss of revenue and sponsors for their heartless words.

I for one who frequent the Jersey shore will not be listening to this radio station.

Sincerely,

M. Knowles
