

## FCC Regulation Changes

I appose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or “fleeting.”

I am not a television subscriber. However, most people are. I cannot have my future child be exposed to low standards of broadcasts while at a babysitters or in the public. Everyone listens to the radio including me and my family. Trying to control what children see and hear is hard enough at home without knowing that when they leave home they are automatically exposed to what we are censoring from them to begin with.

Any changes that will currently lower standards to allow more nudity and swearing on TV and Radio are **unacceptable**.

Thank you for taking the time to review this comment.

Sincerely,

Jonathan R. Herman
