

I am in full agreement with the PTC in protesting any relaxing of the decency laws for public television. I am constantly having to examine what is on shows that are rated for children and the commercials they play. Primetime channels are getting more violent and sexual every year and the FCC doesn't seem to care. They aren't enforcing the current laws and I don't what to see what happens when the laws are relaxed again.

Please give us channel choice on Cable and Satelite systems.
