

Dear Sir,or Madame,I find it unconsciencenable that you would consider lowering the standards for TV,and like media,any further! Allowing swearing,and nudity to be strewn across the screens of millions of homes is outrageous. Studies have proven links to what children watch,and their behavior,and you want to allow more sex,and more filth? Isn't there TOO MUCH already?! Where will this end? With XXX Pornography becoming the Prime-time norm? If anything you should go back to stricter rules,and a solid form of Christian ethics(yes I said Christian on a public document!). We wonder why our children grow-up dysfunctional,angry,sexualized at a young age,and thus grow into dysfunctional adults. Well;although there are certainly several factors involved,the influence of TV,Movies,Video Games,and Radio are some of the strongest ones. Please do NOT lower the standards any further. Respectfully yours in Christ,Anthony Szary. Thankyou.
