

I object to the changes suggested by the FCC in GN Docket No. 13-86 because of the Federal television decency law, 18 U. S. C. 1464. It prohibits all acts of indecency and profanity on broadcast TV. The proposed changes would violate that law. Those changes would specifically allow indecency and profanity on the publicly owned airwaves at times of day when children can be expected to be in the audience.

There's too much profanity and sexual content on the TV now! And I want to protect our innocent children! Please do not pass this law.
