

I have repeatedly filed complaints for unwanted calls to my home phone line on the Do Not Call registry. The numbers listed on the Caller ID are: 855-496-4285, 213-457-4056, 800-728-3337. Numerous people on the internet list these harassing calls. I report them to the FCC EVERY SINGLE time, which is annoying and time consuming but nothing seems to be done. Can't the FCC prosecute these offenders? I am sick of being interrupted and intruded upon and having my time wasted making the same complaints over and over with NO RESULTS.
