

There's enough filth in the world without the FCC shunning their responsibility to stop doing what the Supreme Court says they should be doing...STOPPING INDECENT LANGUAGE AND ACTIONS THAT COULD DAMAGE OUR CHILDREN!

I am totally against the plan to reduce that responsibility in any way. If any change should be made, it should be in the opposite direction and strengthen the FCC charter to denounce and fine the networks for the moral damage that they currently are imposing on the American public.

Please do not allow any lessening of the FCC responsibility to protect our children and the sense of decency that most families deserve from the networks.
