

Mt. Lemmon has had no cell phone service providers since December 2012, after 10 years of great service. Mt. Lemmon Fire concurs.

Cabin owners (mostly aged), hikers, increased traffic, concert attendees, bicyclists, marathoners, rock climbers, skiers, campers all need cell service for safety. Sheriff and Fire service need it. There remains only one way up and the same way down for this mountain. Please help, Please help. This community is needy of help.
