

Please stop the flow of profanity and nudity on broadcast TV. We will not watch programming containing more than is allowed now. We have already tuned out some of what would be our favorite shows because of the flow of offensive language and profane subject matter. We have friends that have already eliminated broadcast TV by not subscribing to cable or satellite, but merely to services like Netflix and using the internet for news. Allowing broadcast TV to become more and more polluted will surely lead to its eventual demise. Please do not accelerate this; put the brakes on obscenity on broadcast TV. Sincerely, V Mallon
