

There was a time when modesty and decency of dress was respected in the United States. We had less sexually transmitted disease, less divorce and broken homes, less rape, pornography, unwanted babies, abortion and all of the problems that come with sexual immorality.

Allowing nudity on TV will only make matters worse. It is time to respect God's standards for sex and stop promoting, encouraging and tolerating sexual immorality in our media.

Don't allow the pornography, nudity or profanity to be compromised any more. Return to the standards that we upheld 50 years ago before this moral landslide started to occur.

Respect God's ways or there will be a heavy price for everyone to pay - even those who are innocent victims.

God Bless America
