

The Ferre Family respectfully asks you to please reconsider and do not allow profanity and nudity during broadcast hours, we would say not any, but especially those times of day when children are most likely to be watching. We need to create an environment for our children that is decent, wholesome, clean, and safe, and while media for some time has often not reflected those commonsense, basic values, there is no time to start like the present! Thank you for your time, and we appreciate your help in this matter. Sincerely, The Ferre Family
