

Please do not allow nudity and profanity into broadcast tv. As a father of two boys, it's hard enough teaching them to respect and revere womanhood when billboards, friends at school and every other form of media it seems, portray women in a degrading, sexually objectifying way. Allowing nudity onto broadcast tv will only make that battle harder, and reduce the chances that the youth of our nation will grow up into considerate people of character. If you care about the generation of tomorrow, please don't let nudity and profanity gain this foothold over our youth. Thank you.
