

Please please please do NOT allow the FCC's proposal to start allowing nudity and profanity on broadcast TV during hours when kids are surely watching. Youth with significant exposure to sexuality in the media were shown to be significantly more likely to have had intercourse at ages 14 to 16 (Report in Pediatrics, April, 2006). Even brief nudity can lead to more pornography which can lead to pornography addictions. At a 2003 meeting of the American Academy of Matrimonial Lawyers, two thirds of the 350 divorce lawyers who attended said the Internet played a significant role in the divorces in the past year, with excessive interest in online porn contributing to more than half such cases. Pornography had an almost non-existent role in divorce just seven or eight years ago. If there is nudity on TV, internet porn will also go up. Divorce has a devastating effect on society. Economic decline, including bankruptcies, fatherless children, and families depending on the government. It is not a leap to say that degrading values in media lead to a degrading society.
