

I wish to speak against the folly of the FCC's desire to expose our youth to nudity and profanity in prime time. The FCC is there for the GOOD of our citizens not their destruction. Opening the door wider to these cancers will only hasten the destruction of America and her people. I urge the FCC to close the door to these evils not open it wider. Television is a major influence in our world. You are leader either to the good or to the evil. Again, I urge you to hold to the solid moral ground of what is pure and wholesome.
