

TV is so bad now, leave the profanity, sex and nudity out. We don't need our grandkids and children to watch and listen to pornography, acts of sex and profanity. What happened to the good family TV programs that taught good values and character? Pornography corrupts the mind, even in adults. Profanity is not necessary and our children do not need to watch, hear and see such filth. It's no wonder we have so many child molesters, sex abusers attacking people of all ages. If people think it necessary to have pornography, profanity and sex acts on TV, let them find it elsewhere. Let's teach our children good morals not filth.
