

Do not allow nudity and profanity on regular broadcast television!!!! That is why there are movies and movie ratings. If people want to see that kind of stuff, they know they can go pay for it with extended cable, or going to the movies. But there are a lot of us who do not wish to see that or have our children see that. We want to be able to watch TV in our home without fearing what we might see or hear when we turn it on.

As parents we take comfort in knowing our homes are a place of refuge and security from those things in the world we want to protect our children from. By allowing nudity and profanity on regular broadcast television, we can't protect our children even in our own homes.
