

Do not allow Television programming to be degraded with nudity and profanity. Do not allow profanity and nudity on any television programs for children to see. Childhood is precious and needs to be protected from such subjectivity. Remember the spiritual adherents of the teutons wallow in subjectivising spirituality. We all have to learn spirituality, transcendence and aesthetics. Profanity and nudity are symptoms of no culture due to its baseness without appreciation for any culture. Profanity and nudity are a direct attack upon civilized behavior. Anyone promoting profanity and nudity, belongs in jail and should not be allowed to influence healthy people who are sound in mind, body and deed, who do not need to hear profanity or see nudity that is unacceptable for a sound healthy culture in the USA.
