

I am completely against the thought and decisions to even consider allowing such material to be available for our kids to watch. It's not enough to hear such terrible things on the news, but to allow nudity and profanity and make it readily available to our kids is a really dumb move. Our kids need good, positive and encouraging motivation to influence them to be good kids with good morals. Not information or entertainment that will influence them so NEGATIVELY and disrespectfully. I mean really people, if you're only concerned about making that next dollar, then be smart enough to find a better way instead of exposing our kids to inappropriate material. They are so little and learn so quickly, why would you or anyone else even consider it?? Please, do not do this to our kids.
