

Please do not allow pornographic images or nudity on regular tv programming during hours in which my child is normally awake and watching tv. Please do not allow nudity or porn during any hour of the day. I am a new mom and will be welcoming my child into this world any day now. I am sad that nudity is being considered justifiable during regular television programming. Pornography is horrific and can tear families apart. Do not allow porn on our tvs if you believe in the sacred family unit and in our country. Sexuality is not something that needs to be exploited, but kept private. Please consider my comments when making your decision, thank you.
