

Please protect the innocence of our children. Please prohibit the airing of nudity and profanity. This perversion will continue to deteriorate the morality of our children and have a profound impact on teaching proper boundaries and values. TV has already deteriorated and is already a bad influence delivering toxic messages about sexuality and seems to be getting worse in the use of profane words. It is our moral and ethical responsibility to protect our children. Please take that responsibility seriously and refrain from content that is not appropriate for children.
