

There is already too much nudity and swear words on television, and at a time when children may be watching. You already allow violent programs where people are gunned down or knifed and children are watching this and taking their guns to school and continuing the violence they have seen since very young. Why must we have this filth on our televisions? I am offended and I am of age. We were told 30 years ago that sex and violence on TV will have a negative effect on children and now...it has.

Please stop the nudity and profanity, only degenerates need to stoop to the lowest level to communicate.
