

How many parents contacted you asking you to help expose their children to more profanity and more nudity? I suspect none. If so, then why even consider relaxing the current standards? What possible good is being served by such a move? Please, in all that you do, consider how a given decision will help to bring out the best in our society and culture. Television can have a big influence *especially* on children, and I hope you will do all you can to influence them for the better. We parents can use the help! Thank you.
