

I would like to make a large complaint concerning several individuals. My complaint concerns people illegally tracking me and seems not to be of your office. It concerns the fact that there have been illegal ear implants placed into my ears without legal reason and without my permission. There are three individuals directly involved: Andrew Maddux an Engineer of Des Moines IA worked for sprint, Eric Barnhart whom used to be of KBR who now works after Haliburton for a telecommunications company in SW Washington, and Jeremy Beckmann of central Iowa who has worked for Mcleod in the past. They utilize this system to be able to call my ear directly, the right one that is, also they seem to be utilizing this technology within the state of Oregon to track and record my statements almost to the point of my thoughts. I get criminally harassed and followed. I would appreciate your investigation and help as this concerns a William Saar and his Harassment as Well. I have requested help from the FBI, Oregon Senators, Oregon Representatives, and the White House site for discussion. I have proof and every time things are close being acted upon Michelle Lynn Dunbar DPM's name comes up and they try to stop the repercussions due to her association with General Dunbar of Northwest Wisconsin. I need your help. There have also been three other telecommunications pole workers follow me around that are known to drive to Portland, OR to visit Rocky Lyons Beaman and the involvement of a Tom Pepper through a group of Liberty Spirit individuals with Salem PD and Gerald Barnhart. Dr. Brooke R. Beckmann 5039907620
