

I urge the FCC to take all nudity and profanity off of over the air television. This is hurting our children, my family is very active in what we watch on tv,, we do not subscribe to cable so over the air shows are all we watch and really you can only watch PBS. We are tax payers and we expect our government to protect the public from harm and nudity and profanity are harmful to our society. please have some courage and do the right thing for America for once!
