

Approval of prime time nudity and profanity would place children and teens at risk due to the behavior that these types of pictures would evoke in some people who cannot control their impulses and are driven by what they see. These types of pictures and language are offense to many people and families who currently are able to enjoy programs together. Approval of nudity and profanity will not increase profits but could possibly decrease profits for networks and companies who advise on these particular shows. Please do not put profits before family and safety.
