

NO NUDITY OR MORE PROFANITY ON TV

There is no reason porn should be allowed on tv period, especially during the day time. Look at the statistics on those that view pornoghy. If you are showing nudity, you are showing porn. If someone views porn or a lot of sex and nudity, eventually they will act on it. This can lead to sex trafficking by paying for sex from a girl or brothel. Even young girls as young as 12 are being sold. Please do not be a part of the problem. Be a part of the solution in setting standards above the rest. Either you value family or you don't. Everyone one is someone's child. Would you want your child to be caught up in a sex ring or prostituion ring? If there wasnt buying there wouldn't be selling and their wouldn't be selling if there wasn't marketing for it. Nudity on tv is just a step in the wrong direction.
