

I would like to see the FCC stand up and continue to protect our children during daylight and prime family time viewing hours on television. I understand that there is currently a proposal before the FCC to sanction nudity and profanity on broadcast TV during hours when kids watch television. Until now, this has been typically off limits until after hours. The FCC proposal would allow "isolated incidences" of nudity and profanity on network television. I strongly urge the FCC to reject this proposal and continue to safeguard our impressionable children.
