

I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or fleeting. The Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity, especially during times when children are likely to be watching or listening. Relaxing the current policy would not serve the public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations. It has probably been a while since any of you have read the Bible but if you have you would have come across verses that told you that to show nudity is a sin against God and he will not bless a country that does such things. Also using profanity is a breaking of the third commandment of the 10 commandments that God gave to Moses many years ago. Remember when you break God's laws he brings judgment upon the law breakers in such a way that if you do recognize that you have committed sin it is generally too late. There were a few examples when the people repented of their sin God did not bring his judgment upon them. If you want to see what God can really do look at the Book of Genesis Chapter 7 through Chapter 12 and read how he plagued the Egyptians with seven plagues so that the country of Egypt has not returned to its full glory since. We are not above God's wrath for our sin. Let this be a warning to you if you persist in bringing upon the people of America this sin I will be praying that God will bring his judgment upon you in the days that lie ahead. If God opens your eyes you will know his judgment when it comes and if you will repent of your sin Jesus Christ is faithful and just to forgive you of your sins. I am not threatening you but I am just a servant of the True and living God and I am telling you what God can and will do to those who bring sin upon his people.
