

I have been receiving fraudulent calls and voicemails from the number 937-534-2092 from Dayton, OH. In the call, an automated recording tells me " Concerning your GE Capital Retail Bank account, please contact us right away". Then, if you answer or call back, they say "Please verify which zip code is yours" and it will list 3 or 4 options". I do not have a GE account, and there are no options to speak with a representative - only verify a zip code. I contacted GE and they confirmed this was a scam and not to provide any information.
