USAC Denial Reason

Failure to provide the requested information by the due date of March 29, 2013.

A Request for Reconsideration was also sent to USAC.

Summary

The initial information was sent to the reviewer on March 28, 2013. The PIA reviewer determined this to be an incomplete response and requested additional information due one day later on March 29, 2013. This included a letter signed by the Principal who was engaged with other school business. The requested information was sent to the reviewer on June 3, 2013 two business days after the due date and before the FCDL was issued on June 6, 2013.

We contend this is an unreasonable request for a one day turn around and ask that the FCC return this application to USAC for review based on the information provided before the FCDL was issued. Per precedent we ask the FCC to consider the following FCC decisions:

12-2013

12-2057

Additionally, FCC decision 11-60 allows applicants to make changes to applications before the FCDL is issued.
