MORE DATA SOUGHT ON EXTRA FEES LEVIED ON INMATE CALLING SERVICES

WC Docket No. 12-375

Comment Date: July 17, 2013
Reply Comment Date: July 24, 2013

With this Public Notice, the Wireline Competition Bureau (Bureau) seeks additional comment on certain fees related to inmate calling services (ICS). Comments in the record in the above-referenced proceeding indicate that ICS providers may charge ICS account holders fees that appear ancillary to making calls, such as account setup fees, account replenishment fees, account refund fees, and account inactivity fees (Ancillary ICS Fees).¹

The Bureau requests that parties provide data and information about such fees. Specifically, we request that parties identify any Ancillary ICS Fees that ICS providers charge in connection with the provision of interstate ICS, the level of each fee, total amount of revenue received from each fee, and cost of providing the service for which the fee recovers. We also request that parties identify any portion of ancillary service costs that are shared or common to provision of other services, and explain how these costs, and recovery of them, are apportioned among the services to which they are shared or common. To evaluate how costs associated with providing ancillary services relate to ICS providers’ overall costs, the Bureau requests additional service provider cost data, discussed below.

We request that costs that are shared or common to the provision of Ancillary ICS Services be identified, and that parties explain how such costs are apportioned to and recovered by ICS rates. Specifically, providers submitting joint and common costs are requested to provide both per-minute rates and fixed charges associated with interstate ICS and intrastate ICS and information on the costs of providing ICS, including but not limited to Customer Premise Equipment or CPE, installation, specific security enhancements (such as monitoring, call blocking, etc.), labor, maintenance, interconnection fees, and any other cost recovered by ICS rates. In addition to per-minute or incremental costs, we seek information on fixed costs, including recovered and unrecovered costs, historic and projected demand, and information on how such costs are recovered. This request for data and information falls within the scope of the Notice of Proposed Rulemaking² in the above-referenced proceeding, which is similar to

what the Bureau previously requested in 2002, when it sought “comment generally on costs associated
with the provision of inmate calling services.”

As discussed above, this Public Notice seeks comment on certain issues raised in the Rates for
Interstate Inmate Calling Services NPRM that is intended to refresh the record regarding rates for
interstate ICS calling. The Initial Regulatory Flexibility Analysis (IRFA) for that proceeding is found at
Appendix C of the Rates for Interstate Inmate Calling Services NPRM, 27 FCC Rcd 16629, 16653-57
(2012). In addition, we invite comment on the IRFA in light of developments since the issuance of the
original IRFA.
