To : FCC

Sub : Appeal for Out-of-Window Waiver for 471

To Whom It May Concern,

On behalf of our Youth Development Program, I would like to repeat our request for a waiver for our FCC Form 471, filed late this year for the year 2013. This funding program would greatly help our school with the telecommunications services it needs, especially as we are a private school that seeks to help students from disadvantaged backgrounds. Our high school-aged students who were not able to succeed in other schools come to us locally and internationally to get more personal help in advancing their studies, careers, and stabilizing their lives. As their parents usually are not even able to meet our low-tuition requirements, we really heavily on outside funding to pay for basic school costs, which then goes directly to helping our students to continue to become contributing members of the community around them, and wherever they continue throughout the world.

As I am a newly appointed administrator, and did not know of this opportunity until late, I filed my Form 470 on time, but was not able to fill the 471 within the window, since I was not informed about the 28-day wait. I had previously faxed an appeal, but have not received any contact about it, so I am refilling for the waiver. I would greatly appreciate if you could grant our school this opportunity, as it is our first time dealing with FCC, and this funding would go a long way for us. I am available at my number – 412-715-3018, or by email at yschulman770@yahoo.com.

Sincerely,

Joseph Schulman
Program Manager – Administration
