

I urge you to deny the license renewal of WTMJ4 Milwaukee. This broadcast station deliberately libeled a police officer in February 2013 and have never retracted their accusation to this day. In fact, the people responsible for this crime are still employed at this station. More appalling, the producer of the piece used the story for two days as a sensationalized promo before identifying the officer and telling the false story, knowing full well the story was false. The station and the producer, Lindsey Morone, are now being sued for libel.
