To Whom It May Concern:

This is a letter of appeal pertaining to the closing of FY 13 471 form. Christina Moore (our contact person) filed the 471 today when she noticed the deadline had lapsed. We knew we couldn't file the 471 until 28 days after the 470. In that timeframe, we had another lady out of the office and it was very busy with just one person. We are very short staffed due to budget shortfalls and only have two people in our Central Office now.

It has only been 7 days since the deadline and we are hoping you will let us put our application back in the open window timeframe.

The 471 did get electronically filed today along with the attachments. Below is the information from the 471:

471 Application number:	932168
Billed Entity	200298
Application from 470	823730001099674
Spin #143028229	Telrite Corporation

This application is under East Range II CSD #12.
