SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.6 Service Offerings****3.6.1 VAC Inmate Calling Service**

This specialized calling service is available when the correctional facility contracts for VAC Inmate Calling Service on behalf of the inmates. Special restrictions and limitations may apply to calls made by inmates, including restriction to collect-calls only. InterLATA, intraLATA and local calling are available, as specified by the correctional facility subscriber.

3.6.1.A Collect Call Assurance Program

The Company reserves the right to collect an advance payment equal to two (2) months of estimated collect calling service. **If a calling history has not been established, the advance payment will be at least \$100.00, but will not exceed \$1,000.00.** Payment must be made in U.S. dollars in the form of a cashier's check or money order.

The Company may limit charges to Customers who routinely accept collect calls from end users at correctional facilities at the advance payment level. During any billing cycle in which the customer is within 10% of the limit (the advance payment amount), the Company will offer the customer the choice of refusing service upon reaching the limit or increasing the advance payment. This allows the Company's collect customers to control the amount spent on collect calls from inmates while allowing the Company to offer service to customers whose credit worthiness would otherwise preclude continued service.

RATES, RULES AND REGULATIONS FOR FURNISHING
TELEPHONE SERVICE

BY

VALUE-ADDED COMMUNICATIONS, INC.

This tariff contains the descriptions, regulations, rates, and charges applicable to the provision of Intrastate Resold Telecommunications and Automated Operator Services between points within Kentucky by Value-Added Communications, Inc., with principal offices at 1601 N. Collins Blvd., Richardson, Texas 75080.

This tariff cancels and replaces, in its entirety, the Kentucky PSC Tariff No. 1 previously on file with the Kentucky Public Services Commission.

SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.6 Service Offerings (Continued)****3.6.3 VAC Inmate Calling Service**

This specialized calling service is available when the correctional facility contracts for VAC Inmate Calling Service on behalf of the inmates. Special restrictions and limitations may apply to calls made by inmates, including restriction to collect-calls only. InterLATA, intraLATA and local calling are available, as specified by the correctional facility subscriber.

3.6.3.A Collect Call Assurance Program

The Company reserves the right to collect an advance payment equal to two (2) months of estimated collect calling service. **If a calling history has not been established, the advance payment will be at least \$100.00, but will not exceed \$1,000.00.** Payment must be made in U.S. dollars in the form of a cashier's check or money order.

The Company may limit charges to Customers who routinely accept collect calls from end users at correctional facilities at the advance payment level. During any billing cycle in which the customer is within 10% of the limit (the advance payment amount), the Company will offer the customer the choice of refusing service upon reaching the limit or increasing the advance payment. This allows the Company's collect customers to control the amount spent on collect calls from inmates while allowing the Company to offer service to customers whose credit worthiness would otherwise preclude continued service.

SECTION 3 - DESCRIPTION OF SERVICES, (CONT'D.)**3.4 VAC Inmate Calling Service**

This specialized calling service is available when the correctional facility contracts for VAC Inmate Calling Service on behalf of the inmates. Special restrictions and limitations may apply to calls made by inmates, including restriction to collect-calls only. InterLATA, intraLATA are available, as specified by the correctional facility subscriber.

3.4.1.A Collect Call Assurance Program

The Company reserves the right to collect an advance payment equal to two (2) months of estimated collect calling service. **If a calling history has not been established, the advance payment will be at least \$100.00**, but will not exceed \$1,000.00. Payment must be made in U.S. dollars in the form of a cashier's check or money order.

The Company may limit charges to Customers who routinely accept collect calls from end users at correctional facilities at the advance payment level. During any billing cycle in which the customer is within 10% of the limit (the advance payment amount), the Company will offer the customer the choice of refusing service upon reach the limit or increasing the advance payment. This allows the Company's collect customers to control the amount spent on collect calls from inmates while allowing the Company to offer service to customers whose credit worthiness would otherwise preclude continued service.

3.4.1.B COD Collect

The Company offers COD Collect to inmates and to customers who accept inmate calls from certain correctional facilities served by the Company. COD Collect allows the inmate or collect call customer to establish a commissary account at the correctional facility for payment of call charges to the Company. The inmate or the collect call customer establishes the amount of the commissary account. The Company submits call charges to the administrator of the commissary account. The administrator is responsible for remitting payment to the Company according to the terms of the contract with the correctional facility. Where state law requires, the availability of a commissary account may be limited to collect call customers only. Commissary accounts are only available at those institutions served by the Company that have made the appropriate contractual and operational arrangements for such service. Calls billed to a commissary account are not billed on the customer's local telephone bill.

Commissary accounts may, at the Company's election, be offered for prepaid direct dialed calling services, at those institutions served by the Company which have made the appropriate contractual and operational arrangements for such services.

SECTION 4 - RATES AND CHARGES**4.1 General**

Each customer is charged individually for each call placed through the Company. All charges are expressed in Dollars unless otherwise specified.

The charges for the Company's services are determined by:

- Distance between stations,
- Time of day and day of week,
- Duration of the call,
- Class of call, and
- Jurisdictional nature of the call (intraLATA or interLATA).

Customers are billed based on their use of the Company's service. No installation charges or fixed monthly recurring charges apply.

4.2 Automated Operator Service Charges

All automated operator calls are subject to operator service charges. These charges apply on a per call basis and will be included with usage charges on a customer's monthly invoice of charges.
