

I oppose any changes to the current FCC indecency standards that would allow TV or radio stations to broadcast nudity and expletives....even for brief moments. We need to clean up, not further deteriorate the moral fiber of this great country of ours. What we see and hear over our airways, over time, changes what is deemed acceptable behavior by those who tune in..especially for our youth. Let's protect what we imply is decent..be responsible and continue to filter out indecency.
