

949 KCMO in the Kansas City area is the worst and terrible station in the whole entire area! I am in my 60's and I am appalled and disgusted with the way the Afternoon DJ had treated me! I made a request for a oldies song that came out in the 1960s and the dj had the nerve to tell me that I can't play that song and my Program Director couldnt let me play that song and I asked him why? And he said that the Baby boomers are dying off and we dont cater to them anymore.. There is no other radio station in town that would have played that song... I don't know whats the matter with sociaty anymore these days but its very rude and disrespectful for them and their staff to treat anybody like that And Im sure im not the only one! This station is not fit for Kansas City Audiences! And i will not let my friends or Family listen to them again! Please take my comments into Consideration! They have lost a Listener for good!
