Dear Ms. Dortch:

On July 30, 2013, on behalf of the GPS Innovation Alliance, Russell H. Fox, counsel for Trimble Navigation Limited (“Trimble”), M. Anne Swanson, counsel for Garmin International, Inc. (“Garmin”), and the undersigned, as counsel for Deere & Company (“Deere”) (Trimble, Garmin and Deere are all founding members of the GPS Innovation Alliance and are collectively referred to herein as the “GPS Parties”) met with Julius Knapp and Ron Repasi of the Office of Engineering and Technology and John Chambers of the Office of Strategic Planning and Policy Analysis and separately with Courtney Reinhard, Legal Advisor to Commissioner Ajit Pai.

As active participants in the above-referenced proceedings, the GPS Parties expressed their continuing interest in the Commission’s consideration of LightSquared’s various pending applications and revised proposals. The GPS Parties are committed to working with the Commission and LightSquared on the challenging interference issues relevant to the Global Positioning System (“GPS”) and the many millions of government and consumer users that rely on GPS for many applications, including applications critical to health and safety and major industries. The GPS Parties support a careful and complete assessment of LightSquared’s proposals. Until the record is complete regarding, among other things, proposed use of that the 1626.5 - 1660.5 MHz band for uplink signals, the Commission should take no action on the pending requests. The GPS Parties look forward to working constructively with LightSquared and Commission staff on these matters.

Please do not hesitate to contact the undersigned with any questions.

Respectfully Submitted,

/electronically signed/
