

Regarding Form 471 Application Number 933947

My name is Brad Lakritz. I have taken over the position responsible for managing this application for our school.

Our FCC Form 471 application and/or certification was received or postmarked after the deadline for an application to be considered as filed within the window.

I am working to establish what forms need to be completed to get our application back on track.

Please contact me directly if you have any questions.
