Re: *In the Matter of Accessibility of User Interfaces, and Video Programming  
Guides and Menus, MB Docket No. 12-108, Notice of Proposed Rulemaking  
(FCC 13-77)*

Dear Commissioners:

Santa Maria Community Television submits this letter in the above-referenced rulemaking proceeding (NPRM) in support of the comments filed by the Alliance for Community Media; the Alliance for Communications Democracy; Montgomery County, Maryland; and the National Association of Counties, National Association of Telecommunications Officers and Advisors & U.S. Conference of Mayors.

Santa Maria Community Television is a full-service Public, Educational and Government community access operation. Our three channels of programming reach 12,000-plus subscribers in the communities of Santa Maria and Orcutt, California.

We urge the Commission to adopt rules that would require video programming guides and menus which display channel and program information to include, for all channels, high level channel and program descriptions and titles, as well as a symbol identifying the programs with accessibility options (captioning and video description).

Thank you for the opportunity to submit these comments.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alan Sutterfield'.
