

I am not sure if this is the right path here to help people out, this Telemarketing firms hiding behind the business name eDegree are in fact Helios Media Marketing, located in Phoenix, AZ. They are using the internet and a predictive dialer and agents located all over the country. They ignore the DNC list no matter how many times the outbound caller tries to take them off the list. They are also using a robo caller, to contact people.

They are offering to connect people with higher education schools, Colleges and Universities to receive more information, and will only connect people with the institutions that pay them for the lead, and could be an hour plus from your home.
