

It is well-known throughout the broadcast communities that station owners, managers, over-the-air personalities, directors, producers, & other "talent" use the public's air waves to broadcast personal messages to & about people they "like" or hate! It is also a common practice to abuse the public's air waves to sway public opinion for or against someone they like or hate (e.g. those recent smears of older women by the sports guy & his cronies who concocted the football player's (Hawaiian-Notre Dame) farce & the currently running cougar messes on cable TV)! All of these trash heap style wastes of the public's air time are personal schemes to insult ONE WOMAN!!! Imagine that! Meanwhile, the golfer makes fools of all his "friends" & sycophants because they are too afraid to stay away from his bizarre requests (money's too good, the whores say). ABC network is rife with covering up for this golfer's sick games on the public's time! We need better control over the public air waves! Idiots using their money to broadcast their emotional immaturity need to seek professional attention elsewhere! Millions of people are fed up with trashy, trivial, violent, & abusive to women garbage being thrown down our TV throats by subhuman men & their minions! Get off our air waves!
