

President Obama announced a new FCC "Directive" on 8-13-13 to raise Cell Phone taxes ~\$5 a year to enhance Public School High Speed Access. Although I appreciate the overall goal of this directive, I absolutely OBJECT to the FCC raising taxes to underwrite a goal that should be funded by the US Congress. (Why wasn't this in the Shovel Ready Projects for Stimulus spending?)

PLEASE DO NOT RAISE TAXES for a project that should be funded by regular US Taxes as approved by the US Congress. It's not your job!
