

Secretary Dortch,

To any one who will listen:

Caption Call phone is a great service. I am pissed off that you (FCC) now makes my 76 year old dad turn his captions on. Why is the FCC aloud to break the law" Have you heard of the American Disability Act" Or also known as ADA" I think you have since you are the GOVERNMENT. STOP BREAKING THE LAW! Do you think my dad ever remembers to turn his captions on" NO! He is old and has no idea about technology! I want to be able to talk to my dad on the phone without the hassle of the government interfering with my dad's LEGAL RIGHTS. FIX IT and FIX IT NOW! I want this taken care of ASAP! ALSO - To my US Senators - Senator McCain you are old yourself and you know for a fact you can't hear correctly. What if you didn't have assistants to help you with everything" Do you think that you would remember to turn captions on" NO - right now you have someone who will push the button for you. PLEASE make the FCC do what is right - KEEP captions on! Senator Flake - You have family you want to talk to right" I am sure you have someone who is hard of hearing - Do you think they want the hassle of a phone that is breaking the law" Please bring back functional equality to this phone. The government made the law to keep all products equal for the hard of hearing. PLEASE to everyone - STOP breaking the law - keep captions on! Billie Hernandez
