Re: Ex Parte Presentation in WT Docket No. 12-327

Dear Ms. Dortch:

On August 21, 2013, John Janka and James Barker on behalf of LightSquared and the undersigned on behalf of Crown Castle met telephonically with Roger Noel and Nina Shafran of the Federal Communications Commission (“Commission”).

During the meeting, Crown Castle and LightSquared updated the Commission on ongoing efforts to satisfy the substantial service requirement applicable to the 1670-1675 MHz spectrum license (“Spectrum”) held by Crown Castle’s wholly owned subsidiary and leased to a LightSquared subsidiary. The parties explained that construction of a mobile video network was well underway and on track to meet the construction requirement by the applicable October 1, 2013 deadline.

Crown Castle and LightSquared further explained that, despite their commitment to meeting the deadline and significant investment to do so, contingencies could arise in such a large project that could extend the schedule past the deadline. In such a situation, the parties said, Commission precedent would support an extension to enable completion of the network.

Please contact me if you have any questions regarding this meeting.

Sincerely,

/s/ John L. Flynn

John L. Flynn

Cc: Roger Noel
Nina Shafran
